TO WHOM IT MAY CONCERN

Tania Shenstone has been with Actors NOW for two years and prior to that she was with another reputable agency for three. The market in Perth being relatively small I had known of Tania and respected the work she had done and was doing. It was a pleasure to welcome this talented, professional young woman onto my books.

Tania has proved to not only have the required ability to work in this industry but also has the required determination and passion to succeed. Without exaggeration on every job that she has done I have received either an email, phone call or letter praising her warm personality, her willingness to do whatever was required for the "perfect" scene and her overall professionalism. .

Without hesitation I recommend this pretty and enthusiastic young woman into any national/international institute or agency which trains or represents actors/actresses.

Yours faithfully,

Maxine Howell-Price
